

Sumit Singh

FullStack Engineer

sumitqwerty07@gmail.com | 9654225220

Professional Summary

Full stack engineer with 9+ years of experience building scalable, high-performance enterprise applications using Angular, React, TypeScript, and modern web technologies. Experienced in Python and Generative AI application development. Strong background in frontend architecture, API integration, performance optimization, and delivering enterprise solutions in Agile environments.

Core Skills

Programming languages	• JavaScript, TypeScript, Python
Web technologies	• Angular, React, HTML5, CSS3
Gen AI & Agentic AI	• Generative AI, LLM, Prompt Engg
APIs and middleware	• REST, JSON, FastAPI
Tools and platforms	• JIRA, Visual Studio, Git, Azure, GitHub Actions, Octopus, AWS
AI Tool	• Cursor, Co-Pilot, ChatGpt
UI Libraries & other Technologies	• PrimeNG, JsPlumb, Highcharts, Okta, Redux, Kendo, Angular Material, Bootstrap, RxJs

Professional Experience

Nagarro — Associate Staff Engineer

Jul 2022 – June 2026

Talent Builder Tool

AI-driven talent management platform leveraging analytics and external data.

Key Contributions:

- Led a front-end development team of five members.
- Built scalable UI components using Angular and React.
- Integrated OpenAI with python to generate the results.
- Developed APIs in python using FastAPI.
- Collaborated with product, QA, and backend teams for feature delivery.
- Improved code quality through optimization and reviews.
- Mentored junior developers and supported best engineering practices.

Tech Stack: Angular 17, React, TypeScript, SCSS, AWS, SQL, .NET

Damco — Senior Software Engineer

Apr 2019 – Jul 2022

Producer Portal

Insurance platform digitizing policy and claims workflows.

Key Contributions:

- Developed responsive enterprise modules using Angular.
- Worked directly with clients to gather and implement requirements.
- Built features for policy tracking, claims, and financial workflows.

Tech Stack: Angular 10, PrimeNG, Bootstrap, MongoDB, MuleSoft

Manager Diagnostic Analytical Tool

Analytics platform for investment managers.

Tech Stack: Angular 7, Java, Bootstrap

Cavison — Software Engineer

Nov 2016 – Apr 2019

Application Diagnostic Tool

Real-time monitoring and diagnostics dashboard for enterprise applications.

NetStorm Tool

Performance testing and load simulation platform.

Tech Stack: Angular 2/5, JavaScript, Angular Material, Highcharts, Java

Education

Bachelor of Technology (Computer Science Engineering) Krishna Engineering College, Ghaziabad

Awards

- Distinguished Service Award
- Customer Service Excellence Award
- Engineering Excellence Award
